Margin Expansion – A Positive Surprise; Revenue Moderation Continues

DMART's Q3 Result positively surprised on margins despite an expected moderation in revenue growth. The deceleration in revenue is largely on account of deflation in staples. Store addition remains healthy; opportunity to expansion remains huge (mgmt. pegs long term potential store potential at 2,200-2,300). In-line with past trends, wherein store addition is back-ended in Q4. We believe, the company will be able to open ~57 stores in FY26E. Margin delivery in Q3 was healthy owing to better gross margin and control on OPEX. While DMART has a strong business model and has built moats over the years, we believe increased competitive intensity from quick commerce players and the pace of store addition will be the key monitorables. We maintain NEUTRAL rating on the stock with target price of Rs4,075.

Store Addition Healthy; Topline Moderates

DMart's standalone revenue witnessed moderation in growth from 15.4% YoY in Q2 to 13.2% YoY in Q3. The growth was driven by store addition (+14.2%YoY) and LFL growth (+5.6% YoY for stores operating >24 months). We believe, the sales growth was impacted by higher deflation in staples and non-food products and increased competitive intensity. Foods business (57.2% of revenue) which has seen most GST rationalization has seen sharpest revenue moderation (from 16.3% YoY in Q2 to 12% in Q3) sequentially. Bill cuts grew by 11.9% YoY. The company added 10 stores during the quarter taking total store network to 442 stores. In 9M, the company has added 27 stores (vs 22 stores in H1FY25). Out of the 10 stores opened 3 stores each in Gujarat and Andhra Pradesh followed by 2 stores in Rajasthan and 1 store in Karnataka and Tamil Nadu. The average area for new store is 40k sq.ft (vs 37.5k sq.ft. in prev quarter). Consol revenue grew by 13.3% YoY largely similar to standalone business implying key subsidiary – DMART Ready also grew at similar pace. DMART Ready is currently operational in 19 cities (vs 25 cities last year).

Margin Performance Healthy Despite High Employee Costs

Gross margins expanded by 50bps YoY to 14.6% as share of high margin general merchandise & apparel remained flat (vs 10-15bps share moderation on YoY basis in last few quarters). EBITDA Margins expanded by 47bps YoY to 8.4% (highest in last six quarters). Higher employee expenses (+31.7%YoY, 30bps YoY increase as % of sales) is largely due to inflation in wages and frontloading employee costs due to strong pipeline of store opening as per our estimates. Interest cost grew by 2x YoY due to increase in borrowings.

Maintain NEUTRAL Rating; Topline & Margins To Be In Check

We build in revenue CAGR of 15.7% over FY25-28E which is lower than the growth reported over FY19-25 at 19% CAGR. We also expect EBITDA Margins to be in check due to higher discounting and increased competitive intensity. We upgrade EPS estimates for FY27-28E by ~1.5% owing to better than expected margin performance. We assign target EV/EBITDA Multiple of 40x to Sept'27 and derive target price of Rs4,075 (vs earlier Rs4,000).

This document does not solicit any action based on the material contained herein. It is for the general information of the clients of Centrum. Though disseminated to clients simultaneously, not all clients may receive this report at the same time. Centrum will not treat recipients as clients by virtue of their receiving this report. It does not constitute a personal recommendation or take into account the particular investment objectives, financial situations, or needs of individual clients. Similarly, this document does not have regard to the specific investment objectives, financial situation/circumstances and the particular needs of any specific person who may receive this document. The securities discussed in this report may not be suitable for all investors. The securities described herein may not be eligible for sale in all jurisdictions or to all categories of investors. The countries in which the companies mentioned in this report are organized may have restrictions on investments, voting rights or dealings in securities by nationals of other countries. The appropriateness of a particular investment or strategy will depend on an investor's individual circumstances and objectives. Persons who may receive this document should consider and independently evaluate whether it is suitable for his/ her/their particular circumstances and, if necessary, seek professional/financial advice. Any such person shall be responsible for conducting his/her/their own investigation and analysis of the information contained or referred to in this document and of evaluating the merits and risks involved in the securities forming the subject matter of this document.

The projections and forecasts described in this report were based upon a number of estimates and assumptions and are inherently subject to significant uncertainties and contingencies. Projections and forecasts are necessarily speculative in nature, and it can be expected that one or more of the estimates on which the projections and forecasts were based will not materialize or will vary significantly from actual results, and such variances will likely increase over time. All projections and forecasts described in this report have been prepared solely by the authors of this report independently of the Company. These projections and forecasts were not prepared with a view toward compliance with published guidelines or generally accepted accounting principles. No independent accountants have expressed an opinion or any other form of assurance on these projections or forecasts. You should not regard the inclusion of the projections and forecasts described herein as a representation or warranty by or on behalf of the Company, Centrum, the authors of this report or any other person that these projections or forecasts or their underlying assumptions will be achieved. For these reasons, you should only consider the projections and forecasts described in this report after carefully evaluating all of the information in this report, including the assumptions underlying such projections and forecasts.

The price and value of the investments referred to in this document/material and the income from them may go down as well as up, and investors may realize losses on any investments. Past performance is not a guide for future performance. Future returns are not guaranteed and a loss of original capital may occur. Actual results may differ materially from those set forth in projections. Forward-looking statements are not predictions and may be subject to change without notice. Centrum does not provide tax advice to its clients, and all investors are strongly advised to consult regarding any potential investment. Centrum and its affiliates accept no liabilities for any loss or damage of any kind arising out of the use of this report. Foreign currencies denominated securities are subject to fluctuations in exchange rates that could have an adverse effect on the value or price of or income derived from the investment. In addition, investors in securities such as ADRs, the value of which are influenced by foreign currencies effectively assume currency risk. Certain transactions including those involving futures, options, and other derivatives as well as non-investment-grade securities give rise to substantial risk and are not suitable for all investors. Please ensure that you have read and understood the current risk disclosure documents before entering into any derivative transactions.
