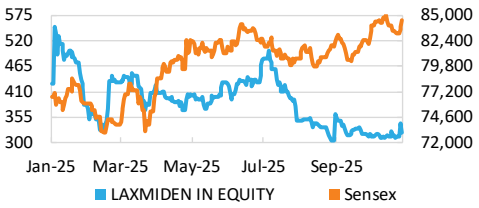
PRICE PERFORMANCE



Solid growth; margins to be watched

Laxmi's Q2FY26 revenue was 3% ahead while EBITDA/PAT missed our estimates by 18%/11%. EBITDA margin was soft at 15.3% hurt by US tariffs, employee increments and higher scanner sales affecting GM.

Management retains 20–25% growth guidance with 13–15% PAT margin despite ongoing global uncertainties. Scanner deployment is yielding results, evident from 46% growth in domestic lab business. Acceleration in international lab sales via geographic expansion and Kids-E approvals by Q4 are added levers. We await a pickup in aligners, which is facing competition. We are cutting FY26E/27E EPS by 15%/15% to factor in lower margin, yielding a TP of INR435 (from INR510); retain 'BUY'. At the CMP, it trades at 41x/30x FY26E/27E P/E.

Q2FY26: Robust revenue growth; sales mix and tariffs hurt margins

Overall revenue surged 27% YoY to INR723mn driven by strong 43% YoY growth in the lab business and a 6% YoY rise in the aligners segment. Within the lab business, domestic shot up 46% while the international segment surged 39% YoY. Gross margin was 68.5% (-720bp YoY) due to higher scanner sales. EBITDA was INR110mn (+26% YoY) with a margin of 15.3% (flat YoY/-290bp QoQ), hurt by higher employee costs and US tariff impact. PAT was INR85mn (+45% YoY).

Lab business on solid footing; digital penetration continues

Laxmi's lab business posted robust 43% YoY growth driven by strong scanner sales (H1FY26 units already surpassing FY25 levels), expansion into new geographies and healthy traction from both existing and new customers. We appreciate management's confidence in sustaining this momentum, aided by continued digital penetration that drives operating efficiencies through lower logistics costs and faster turnaround times, thereby supporting margins. We reckon revenue/EBITDA growth of 27%/39% for the lab business over FY25–28E. While higher scanner sales weighed on gross margin, Laxmi expects it to normalise with an improved product mix.

Aligner traction key amid heightened competition; retain 'BUY'

The aligners business continued to deliver an underwhelming performance in Q2FY26, facing headwinds from intense competition and aggressive pricing by start-ups and new entrants. Despite this, we note that management remains confident in maintaining margins and sustaining QoQ growth through portfolio expansion and deeper penetration across dentist networks. We are building in 20%/27% revenue/EBITDA growth for the aligner segment over FY25–28E. Tariff impact on margin as well as pending CE approval for Kids-E-dental expected in Q4FY26E, remain key monitorables. Retain **'BUY'** with a revised TP of INR435 (40x FY27 PE).

Q2FY26 earnings call: Key highlights

Business/Industry/Guidance

- US tariffs affected margins.
- **FY26 revenue/PAT margins guidance (factoring in tariff impact):** 20–25% revenue growth; **PAT margins:** 13–15%.
- **EBITDA margin guidance:** H2 has been stronger than H1 and aim to deliver. Mid-term to long-term 20% is achievable.
- **Gross margin –** Will depend on mix of scanner and core dental business; Mid-term to long term mix to change and gross margin should be 75–80%.
- **Data network advantage:** As Laxmi builds and deploys its software base, it shall unlock scale benefits and subscription-led efficiency, driving mid-to long-term gains.
- **Competitive landscape –** Competition exists across segments, but Laxmi's early move into digital dentistry, strong tech integration, and trusted brand gives it an edge. It plans to remain dynamic to sustain its leadership.
- **Customer retention –** Dentists rely on Laxmi for its service, brand and quality — a level of trust shared by few others in the industry.
- Laxmi continues to explore vertical and backward integration with potential expansion into scanners and materials to strengthen its business.
- **Advertising expense –** Will be under 5% for FY26.

Financials

- Capex INR60mn for H1FY26.
- Unutilised funds from IPO proceed shall be used for further capex programmes.
- Increase in employee expenses is due to annual increments.
- ESOP expenses, which are non-cash in nature, were INR16.76mn for Q2FY26 and it is likely to be INR63.4mn for FY26.
- **Trade payables –** Payables were there relating to the IPO, which was cleared in H1FY26.
- **Working capital days –** 65 days.
- R&D expense – Is not major and as of now in control.

Lab business

- International growth was faster than domestic lab business, as it was driven by existing clients, new customer additions and entry into new geographies. However, tariffs affected profitability.
- Operational efficiency, expansion into new geographies, and customer growth will drive margins. If tariffs ease, margins will improve further.

Aligners

- **Vedia solutions – Q2 margins:** 23.6%, Plan is to move to 150 countries in the world, **margin up to 30% can be seen in future**. Thermoforming machines are also sold by Laxmi (manufactured by them).
- Taglus added new customers as well as new geographies in Q2FY26.
- Competitive intensity is high; with smaller start-ups coming in with higher discounts.
- Laxmi continues to prioritise trust while expanding its product portfolio — including aligners, orthodontic trainers, and paediatric solutions. The company is deepening its reach across orthodontic, paediatric, and general dentist networks, maintaining steady, sustainable growth.

KIDS-E-Dental

- Nature of business – Sees larger initial orders from new customers.
- Compared with last year, both Q1 and Q2 reflect a higher base, driven by the addition of new customers and geographies during that period.
- Regulatory clearance in different countries is on track.
- Based on regulatory feedback, CE approval is likely in Q4, unlocking access to 40 countries and enabling a return to past growth levels.
- Plans to be a full-fledged paediatric-focused company with products such as MTA, space maintainers, and silver diamine fluoride. Vision is to go global, securing regulatory approvals and expanding across all business segments.

Scanner

- In Q2FY26, scanner sales which were typically at lower margins were pushed in alignment with long-term digitalization and growth strategy.
- Currently Laxmi has a private label agreement; in future open to newer models.
- As dentists adopt digital scanners, remake rates and turnaround times fall sharply. Scans take just 30 seconds, improving patient comfort. Labs benefit from lower manpower, logistics, and material costs, driving overall efficiency.

Company Description

Incorporated in July 2004, Laxmi Dental is India's only end-to-end integrated dental products company offering a comprehensive portfolio of dental products. Its offerings include custom-made crowns and bridges, branded dental products such as clear aligners, thermoforming sheets and aligner related products as a part of aligner solutions, and paediatric dental products. It serves both domestic and international markets.

Investment Theme

Laxmi Dental is an end-to-end integrated dental company and is the go-to play to ride the wave in the highly underpenetrated and fragmented but fast-growing dental care market. Metal-free crowns are gaining acceptance for their durability and aesthetic appeal, and Laxmi is capitalising on this shift with its branded high-margin 'Illusion Zirconia'. The industry is also moving from physical impressions to digital, with Laxmi's 'iScan Pro' scanner capturing this shift. In addition, Laxmi is directly targeting DSOs in US, which should also accelerate exports growth. The aligners segment, which is reporting rapid adoption, is backed by sector tailwinds such as focus on aesthetics, rising incomes, 510(k) clearance and a sustainable B2B2C model with 'pay-as-you-go'. Kids-e-Dental is also a vital growth pillar for Laxmi, being the sole Indian brand offering exclusive paediatric products. Laxmi has a healthy balance sheet now, with capex provided for.

Key Risks

- Failure to expand dental network and wallet share
- Slower than expected ramp-up in the aligners business
- Geographic concentration in India, US and UK
- Lack of long-term purchase orders raises pricing pressure risks

Additional Disclaimers

Disclaimer for U.S. Persons
This research report is a product of NWML, which is the employer of the research analyst(s) who has prepared the research report. The research analyst(s) preparing the research report is/are resident outside the United States (U.S.) and are not associated persons of any U.S. regulated broker-dealer and therefore the analyst(s) is/are not subject to supervision by a U.S. broker-dealer, and is/are not required to satisfy the regulatory licensing requirements of FINRA or required to otherwise comply with U.S. rules or regulations regarding, among other things, communications with a subject company, public appearances and trading securities held by a research analyst account.

This report is intended for distribution by NWML only to "Major Institutional Investors" as defined by Rule 15a-6(b)(4) of the U.S. Securities and Exchange Act, 1934 (the Exchange Act) and interpretations thereof by U.S. Securities and Exchange Commission (SEC) in reliance on Rule 15a 6(a)(2). If the recipient of this report is not a Major Institutional Investor as specified above, then it should not act upon this report and return the same to the sender. Further, this report may not be copied, duplicated and/or transmitted onward to any U.S. person, which is not the Major Institutional Investor.

In reliance on the exemption from registration provided by Rule 15a-6 of the Exchange Act and interpretations thereof by the SEC in order to conduct certain business with Major Institutional Investors, NWML has entered into an agreement with a U.S. registered broker-dealer, Nuvama Financial Services Inc. (formerly Edelweiss Financial Services Inc.) ("NFSI"). Transactions in securities discussed in this research report should be effected through NFSI.

Disclaimer for U.K. Persons
The contents of this research report have not been approved by an authorised person within the meaning of the Financial Services and Markets Act 2000 ("FSMA").

In the United Kingdom, this research report is being distributed only to and is directed only at (a) persons who have professional experience in matters relating to investments falling within Article 19(5) of the FSMA (Financial Promotion) Order 2005 (the "Order"); (b) persons falling within Article 49(2)(a) to (d) of the Order (including high net worth companies and unincorporated associations); and (c) any other persons to whom it may otherwise lawfully be communicated (all such persons together being referred to as "relevant persons").

This research report must not be acted on or relied on by persons who are not relevant persons. Any investment or investment activity to which this research report relates is available only to relevant persons and will be engaged in only with relevant persons. Any person who is not a relevant person should not act or rely on this research report or any of its contents. This research report must not be distributed, published, reproduced or disclosed (in whole or in part) by recipients to any other person.

Disclaimer for Canadian Persons
This research report is a product of NWML, which is the employer of the research analysts who have prepared the research report. The research analysts preparing the research report are resident outside the Canada and are not associated persons of any Canadian registered adviser and/or dealer and, therefore, the analysts are not subject to supervision by a Canadian registered adviser and/or dealer, and are not required to satisfy the regulatory licensing requirements of the Ontario Securities Commission, other Canadian provincial securities regulators, the Investment Industry Regulatory Organization of Canada and are not required to otherwise comply with Canadian rules or regulations regarding, among other things, the research analysts' business or relationship with a subject company or trading of securities by a research analyst.

This report is intended for distribution by NWML only to "Permitted Clients" (as defined in National Instrument 31-103 ("NI 31-103")) who are resident in the Province of Ontario, Canada (an "Ontario Permitted Client"). If the recipient of this report is not an Ontario Permitted Client, as specified above, then the recipient should not act upon this report and should return the report to the sender. Further, this report may not be copied, duplicated and/or transmitted onward to any Canadian person.

NWML is relying on an exemption from the adviser and/or dealer registration requirements under NI 31-103 available to certain international advisers and/or dealers. Please be advised that (i) NWML is not registered in the Province of Ontario to trade in securities nor is it registered in the Province of Ontario to provide advice with respect to securities; (ii) NWML's head office or principal place of business is located in India; (iii) all or substantially all of NWML's assets may be situated outside of Canada; (iv) there may be difficulty enforcing legal rights against NWML because of the above; and (v) the name and address of the NWML's agent for service of process in the Province of Ontario is: Bamac Services Inc., 181 Bay Street, Suite 2100, Toronto, Ontario M5J 2T3 Canada.

Disclaimer for Singapore Persons
In Singapore, this report is being distributed by Nuvama Investment Advisors Private Limited (NIAPL) (Previously Edelweiss Investment Advisors Private Limited ("EIAPL")) (Co. Reg. No. 201016306H) which is a holder of a capital markets services license and an exempt financial adviser in Singapore and (ii) solely to persons who qualify as "institutional investors" or "accredited investors" as defined in section 4A(1) of the Securities and Futures Act, Chapter 289 of Singapore ("the SFA"). Pursuant to regulations 33, 34, 35 and 36 of the Financial Advisers Regulations ("FAR"), sections 25, 27 and 36 of the Financial Advisers Act, Chapter 110 of Singapore shall not apply to NIAPL when providing any financial advisory services to an accredited investor (as defined in regulation 36 of the FAR. Persons in Singapore should contact NIAPL in respect of any matter arising from, or in connection with this publication/communication. This report is not suitable for private investors.

Disclaimer for Hong Kong persons
This report is distributed in Hong Kong by Nuvama Investment Advisors (Hong Kong) Private Limited (NIAHK) (Previously Edelweiss Securities (Hong Kong) Private Limited (ESHK)), a licensed corporation (BOM -874) licensed and regulated by the Hong Kong Securities and Futures Commission (SFC) pursuant to Section 116(1) of the Securities and Futures Ordinance "SFO".
