Vijaya Diagnostic Centre

Volume-led growth continues

VIJAYA delivered in-line quarter. On group level, revenue growth was 10% YoY with test volume/footfall growth of 8%/6% YoY. Higher share of radiology (38%, +300bp YoY) led to higher realizations in 2QFY26. Realization per test was Rs471 (+2% YoY) while realization per patient was Rs1,685 (+4% YoY). EBITDA was Rs818mn (+8% YoY) with margins contracting marginally by 90bp YoY to 40.6% (our est. 40.5%). However, EBITDA per test declined 1% YoY to Rs191. Adj. PAT was Rs433mn (+3% YoY). In 2QFY26, Hyderabad market witnessed just 3% YoY growth due to seasonality and higher base of last year. Also, Pune revenue declined 6% YoY as the new Kalyani Nagar hub was in fully operational in Jun'25 and is gaining traction steadily. Interestingly, Yelahanka hub centre in Bengaluru has achieved break-even within just two quarters of commencing operations - well ahead of the projected timeline of 1 year. It has also finalized the lease for the flagship centre at Bannerghatta, Bengaluru. In 2HFY26E, it plans to add four hubs (2 each in WB and RoAPT) and 1 spoke in Hyderabad. We have largely maintained our FY26E/FY27E/FY28E EPS estimates. We value VIJAYA at 45x PE on Sep'27E EPS arriving at a unchanged TP of Rs1,140. We remain positive on VIJAYA on account of strong brand equity, continued growth momentum led by volumes with superior margins and return ratios. The stock currently trades at 41x Sep'27 EPS. Maintain Buy.

Market share gain in existing centres/Geographic expansion to drive volumes

In 2QFY26, the growth was driven primarily by volume, with contributions coming from both existing and newly launched centres. Additionally, B2C segment contribution was 92% with wellness contributing to 14.4% (+70bp YoY) to the total revenue. To continue the growth momentum, in Bengaluru, VIJAYA plans to add three more hubs in 2HFY26E taking the total to five hubs. The growth is expected to be volume-driven. Moreover, in core markets, VIJAYA has launched two more hubs in Nandyal and Khammam (AP & Telangana) in Oct'25. In West Bengal, it opened one hub, taking the total to five hubs, in 2QFY26 in Kolkata. Also, it is on track to operationalize two additional hubs by the end of FY26E. In the WB market too, it plans to employ hub-n-spoke model by creating a dense network. Additionally, on account of incremental capex going towards new geographies, over 3-4 years, Hyderabad revenue contribution might come down to ~65% from 72% currently. Over FY25-28E, we expect test volume CAGR of 17% largely led by addition of new centres and increasing footfalls.

Leverage position in radiology to drive higher growth in Bengaluru market

Despite the continued expansion, in 2QFY26, EBITDA grew 8% YoY with margins contracting marginally by 90bp YoY to 40.6%. Going forward, for the new centres, VIJAYA plans to incur capex of Rs1.6bn/Rs1.2bn in FY26E/FY27E. In Bangalore, VIJAYA expects higher growth on account of a) leverage its strength in radiology and b) limited competition (majority have only 2-3 centres each). Also, it expects 3 more hubs in this market in FY26E (total 5 hubs). It is expected to be volume-driven.

Valuation and view

VIJAYA is well placed to continue to post robust double-digit growth over the coming years, with higher focus on share from owned B2C centers and radiology. On consol. basis, over FY25-28E, we expect sales/EBITDA/PAT CAGR of 19%/19%/26% with margins remaining flat at ~40%. Moreover, ROE is expected to expand 180bps reaching ~22% over the same period. We continue to value VIJAYA at 45x PE on Sep'27E EPS arriving at **TP of Rs1,140**. **Maintain Buy**.
