Building scale, enhancing profitability

In 2QFY26, ARTMSL delivered in-line revenue while beat on profitability. Consol. Revenue/EBITDA/PAT grew 14%/20%/35% YoY. EBITDA margins expanded 90bp YoY to 18.4% (our est. 17.2%). Hospital segment net revenue was Rs2.6bn (+16% YoY) with EBITDA margin (ex-other income) expanding marginally by 50bp YoY to 19.4%. Despite operational bed capacity increasing 17% YoY to 544 beds, EBITDA per operating bed grew 11% YoY (+13% QoQ) to Rs5.8mn. This, as per our view, is largely on account of strong operating leverage as Tower-3 is witnessing increased traction in volumes. Overall, IP volumes grew 9% YoY/6% QoQ. Going forward, ARTMSL plans to expand group bed capacity to ~2000 beds (800+ at end-FY25) over the next 3-5 years. We have increased our FY27E/FY28E EPS estimates by 13%/17% on account of a) 300-bed addition in existing Gurgaon facility, b) improving case/payor mix and c) increased profitability. Over FY25-28E, we expect Gurgaon facility's margins to expand 400bp reaching 22%. Also, EBITDA per bed is likely witness 13% CAGR reaching Rs8mn. We continue to value ARTMSL at 16x Sep'27E EV/EBITDA arriving at a revised TP of Rs370. The stock currently trades at 12x Sep'27E EV/EBITDA. Maintain Buy.

Increased traction in Gurgaon facility to drive profitability

In 2QFY26, net revenue of the Gurgaon hospital grew 16% YoY/8% QoQ to Rs2.6bn. Tower-3, operational from 3QFY25, is witnessing strong footfalls, as overall/IP volumes grew 6% YoY/9% YoY, per our view. Over the next 12-18m, ARTMSL plans to add 300 beds in this facility as it has received approval of additional FAR. This will take the bed capacity to 1000 by FY27E. Since these are brownfield additions, we expect higher operating leverage to continue in this facility leading to margins expanding 400bp to 22% over FY25-28E. Additionally, the upcoming Raipur facility is expected to get commissioned in Mar'26. It is expected to breakeven Sep'28E. We expect the cumulative hospital segment to deliver revenue/EBITDA CAGR of 30%/37% with margins expanding 260bp to 20% over FY25-28E.

ARPOB growth to be led by case/payor mix optimization

In 2QFY26, ARPOB grew 7% YoY to Rs82.2K. Of this, price hike was 1.5-2% while rest was mix optimization. MVT revenue was Rs825mn (+30% YoY) with contribution increasing 400bp YoY to 32% as ARTMSL continues to focus on enhancing service offerings, connectivity, and patient camps. Also, it expects marginal improvement in profitability from government contracts. Over FY25-28E, we expect mix optimization leading to Gurgaon facility ARPOB witnessing 6% CAGR.

Artemis Cardiac Care (ACC) and Daffodils & Lite segment to continue on robust growth path

In 2QFY26, ACC revenues declined 27% YoY. This was largely on account of 2 centres which were closed in 3QFY25. As the existing ACC centres mature along with new centres addition, we expect ACC revenue to 3x over FY25-28E. On the other hand, the asset-light Daffodils and Lite hospital are gaining traction and are expected to post revenue CAGR of 18% reaching Rs656mn over FY25-28E. Also, the management remains confident of EBITDA breakeven at Daffodils & Lite from 3FY26E onwards (EBITDA burn to the tune of Rs100-120mn).

Valuation and view

We remain positive on ARTMSL as the brownfield bed additions in flagship Gurgaon facility will lead to higher traction and improved profitability. Over FY25-28E, we expect Revenue/EBITDA/PAT to deliver 30%/40%/45% with margins expanding 380bp to 20%. We continue to value ARTMSL at 16x Sep'27E EV/EBITDA arriving at a revised **TP of Rs370**. The stock currently trades at 12x Sep'27E EV/EBITDA. **Maintain Buy.**
