CENTRUM

Emudhra

Integration Driving Scale; FY26 Revenue Guidance maintained at Rs. 7 Bn

Emudhra reported inline performance for the quarter. It reported revenue of Rs. 1.73 bn, up 17.4% QoQ and 22.4% YoY, aided by healthy traction in enterprise solutions and the first full-quarter consolidation of Cryptas. Segmentally, trust services rose 22.7% QoQ and 18.6% YoY to Rs. 358 mn, while enterprise revenue grew 16.0% QoQ and 23.5% YoY to Rs. 1.37 bn. Within enterprise, India revenue increased 11.3% QoQ and 10.8% YoY to Rs. 283 mn, whereas international markets grew 17.3% QoQ and 27.3% YoY to Rs. 1.09 bn. Revenue mix was led by enterprise international at 62.9% (flat QoQ), followed by trust services at 20.7% (up 90 bps QoQ) and enterprise India at 16.4% (down 90 bps QoQ). EBITDA margin improved marginally by 40 bps QoQ to 23.9%, reflecting continued operating discipline despite integration costs. Reported PAT (after minority interest) stood at Rs. 253 mn, compared to Rs. 249 mn in Q1FY26. It continues to reinforce its leadership in the digital trust, identity, and cybersecurity domain, supported by a steadily expanding global footprint and recent inorganic initiatives. The integration of Cryptas and AI Cyber Force has strengthened its presence across Europe and North America. We expect these strategic investments, coupled with operational scale-up in international markets, to drive sustainable business growth. We expect Revenue/EBITDA/PAT to clock 32.7%/29.4%/21.7% CAGR over FY25-FY28E. We have revised our FY26E/FY27E/FY28E EPS by (6.9%)/(5.9%)/(5.0%). We maintain BUY with a revised target price of Rs 988 (vs Rs 1,045 earlier) at a PE of 45x (unchanged) on Sep'27E EPS.

Revenue growth was in-line with expectations

Revenue for the quarter stood at Rs. 1.73 bn, up 17.4% QoQ and 22.4% YoY, led by strong traction in enterprise solutions and continued growth in trust services. Enterprise revenue grew 16% QoQ to Rs. 1.37 bn, supported by robust performance in international markets (up 17.3% QoQ to Rs. 1.09 bn), while trust services rose 22.7% QoQ to Rs. 358 mn. We expect the full impact of Cryptas consolidation and the ramp-up of new product contracts in the US, Middle East, and Asia-Pacific to accelerate revenue growth in H2FY26, aided by an expanding client base and higher share of product-led deals.

EBITDA margin increased sequentially

EBITDA margin improved 40 bps QoQ to 23.9%, reflecting steady cost control despite one-time integration expenses. PAT after minority interest came in at Rs. 253 mn versus Rs. 249 mn in Q1FY26. We expect margins to improve gradually as synergy benefits from acquisitions materialize and the mix shifts further toward higher-margin enterprise software and subscription-based products. Enhanced localization, automation, and disciplined cost management should also support profitability in the coming quarters.

Maintain BUY

Management reiterated confidence in achieving FY26 revenue of Rs. 7 Bn with stable profitability. A healthy order pipeline across BFSI, government, and regulated verticals, coupled with rising e-signature volumes and cybersecurity adoption, underpins growth visibility. We expect eMudhra to sustain its strong growth trajectory driven by product innovation, and global expansion. We expect Revenue/EBITDA/PAT to clock 32.7%/29.4%/21.7% CAGR over FY25-FY28E. We have revised our FY26E/FY27E/FY28E EPS by (6.9%)/(5.9%)/(5.0%). We maintain BUY with a revised target price of Rs 988 (vs Rs 1,045 earlier) at a PE of 45x (unchanged) on Sep'27E EPS.

Concall Highlights

- Management reiterated confidence in achieving FY26 revenue of Rs. 7 bn with PAT margin of 15.5–16%, supported by improving product traction and better operating leverage.
- Product business remains the primary growth engine led by Cyber security and paperless solutions while the services segment is expected to stay muted in the near term due to US visa restrictions and slower client onboarding.
- Cryptas integration is underway and expected to turn profitable within two quarters; combined offerings to enhance presence across Europe, the Middle East and Asia Pacific.
- Organic growth estimated around 17–18% YoY after excluding inorganic contribution, with management guiding for a stronger H2FY26 on seasonal trust-service uptick, new US contracts and enterprise rollouts.
- Trust-services volumes improving sharply, with e-signature usage rising to ~3 lakh per day; FY26 revenue for this segment likely to increase to Rs. 1.2–1.3 bn from Rs. 1.0 bn YoY.
- US product pipeline remains strong with 5–6 large deals (each >USD 1 mn) under negotiation; 2–3 are expected to close in Q3FY26. New data centers in New Jersey and Salt Lake City now fully approved, enabling local certificate issuance.
- US visa policy changes impacting H1B resources and local hiring; management plans to mitigate margin pressure through a higher-value product mix and client cost pass-throughs.
- Integration of AI Cyber Forge progressing well; combined product launch expected next quarter, enhancing cybersecurity and secrets-management capabilities.
- Working-capital increase driven by higher receivables from volume growth; liquidity remains comfortable with Rs. 1.02 bn cash on books and no near-term acquisition plans.
- R&D investments remain elevated across data-privacy stack, verticalized M-Signer, and voice-authentication modules; launches expected by Mar–Apr 2026.
- US marketing investments remain targeted and measured—participation in events such as RSA and Black Hat improving Fortune 500 engagement; local sales expansion to support growth without major opex rise.
- Management expects inflection in US business over coming quarters as localization, brand visibility, and certification credentials strengthen client trust.
- Private-trust and redundancy-partner opportunities in the US showing early traction; initial contracts with large IoT clients expected to scale through FY26.
- Company continues to diversify geographically to mitigate regional risks and targets sustained double-digit growth through FY28, driven by expanding demand for global digital-trust solutions.
