Delivering business performance with surgical precision

7 August 2025

INDIA | SMALLCAP| RESULT UPDATE

Key takeaways from Q1FY26

- Revenue for the quarter stood at Rs. 2.5 bn, up 11% QOQ and 22% YOY, driven by higher revenue contribution from Jhansi and Faridabad facilities, supported by higher occupancies at the emerging facilities.
- Occupancy for the quarter stood at 65% (vs 61% in Q4FY25 and Q1FY25), occupancies at legacy hospitals improved 5-7%, however major uptick in consolidated figure was driven by Greater Faridabad facility which inched up from 38% in Q4FY25 to 55% in Q1FY26.
- ARPOBs during the quarter were Rs. 32,359 up 6% YOY and QOQ. This was due to improving share of high value surgeries in therapy mix.

Major Conference call highlights:

- **New Hospitals:** Yatharth has begun operations at its MD City, New Delhi facility. It anticipates starting operations at the Sec-20, Faridabad facility in August 2025. The Model Town (currently operational) facility's ARPOB is projected to be similar to Noida hospital's (Rs. ~30,000), while the Faridabad facility is expected to have a slightly higher ARPOB than Noida Extension hospital (Rs. ~38,000).
- **ARPOBs:** The ARPOB for the quarter reached Rs. 32,359, demonstrating a 6% increase both QOQ and YOY. This growth is primarily attributed to a more favorable payor mix and an increased focus on high-value specialties. The management expects 8-10% YOY growth in ARPOBs on a long term sustainable basis. The Company's focus has shifted towards high-value specialties, causing Internal Medicine to decline from 23% of revenue in Q1FY25 to 18% (vs 28% in FY24).
- **Medical Tourists:** Yatharth has setup various information centers in Ethiopia, Iraq, Uzbekistan and Tajikistan as an effort to establish international presence. International patients currently make up <10% of the revenue and the mgmt. expects to bring this up to double digits, however not surpass ~15-20% to keep profitability in check.
- **Capex:** The Company plans to invest between Rs. 14-15 bn in CAPEX over the next three years. This investment is aimed at expanding its bed capacity by 1200-1300 beds during the same period. The average est. CAPEX/bed is around Rs. 10-12 mn/bed.
- **Brownfield Capex:** The Company will undertake brownfield expansion projects at its Greater Noida and Noida Extension hospitals, adding 200 and 250 beds, respectively. This expansion is expected to be operational within 2 to 2.5 years.
- **New Auditors:** It has appointed MSKA and Associates (a member company of BDO international) as new statutory auditors.
- **Management Outlook:** The management anticipates strong momentum in business supported by operationalization of new facilities. It is also eyeing greenfield and brownfield expansion opportunities as it has Rs. 3 bn cash in bank and Rs. ~2 bn cash-flow run-rate. It also plans to expand beyond the current target of 3000 beds by adding 1200-1300 beds on current base of 2300 beds.

Outlook and view:

The company continues to perform well on all business parameters. With the operationalization of new hospitals and announcement of 1200 beds addition guidance; paired with runway to further increase the current ~65% occupancies and an annual 7-8% AROPB growth, we find comfort in its ability to post 25-30% topline growth over FY25-27E. We factor in margin compression owing to new capacity coming online. We acknowledge the tax matter overhang, however the management has taken proactive steps to address it by bringing in BDO International as new auditors. Considering these developments we rejig our exit multiples to 17x (15x earlier); and continue to monitor it as consistency in performance delivery would lead to further re-rating. We broadly maintain our business performance estimates, and anticipate returns on back of multiple expansions on the basis of current healthy performance. We expect a Revenue/EBITDA/PAT growth of 38%/37%/39% over FY25-27E. **We maintain our BUY rating with a revised target price of Rs 874 (Rs 744 earlier) an upside potential of 24.7%.**
