Jash Engg's (Jash) Q3FY26 revenue was severely impacted negatively by US tariff hike which led to a fall of 11% YoY to Rs1,605mn. Jash's standalone revenue was also hurt by lower export to Rodney Hunt (just Rs350 mn in 9MFY26). Revenue within/outside India stood at Rs740mn/Rs869mn. Lower export to US due to tariff related uncertainty impacted the gross margin, which dropped to 55.3% vs 60.8% YoY (57.2% QoQ). Further, 20% YoY higher employee costs impacted EBITDA which declined 58% YoY to Rs 169.6mn. EBITDA margin dipped 1200bps YoY to 10.6%. Water control gates contributed 61% to the topline while screening and valves contributed 16% and 13%, respectively. Balance 10% was contributed by Hydropower and pumping equipment. 40% higher depreciation costs YoY led to 62% decline in adjusted PAT to Rs131mn.

For FY26, the management trimmed revenue guidance to Rs7.8-8bn from earlier Rs 8.6bn, with PAT margin of 9-10% , depending on improving global presence and some relief on the tariff situation. However, order book remain healthier at Rs9.2 bn against Rs8.9bn at the end of Q2FY25, reflecting fresh order of Rs0.3 bn during the quarter. Management is highly optimistic of the growth once the tariffs situation is resolved as they mentioned that the demand for their products remain intact reflected in their orderbook growth. Amid operational headwinds from the ongoing tariff war and anticipated near-term margin pressures, we cut our FY26 revenue/EBITDA/PAT estimates by 7%/34.6%/32.6% and FY27 estimates by 4%/16% and 15% respectively. We roll forward our estimates to FY28 and cut our TP to Rs600 from earlier Rs663 based on PER of 26x on FY28E. We maintain BUY on the stock.

Structural growth story unchanged: Jash operated in a difficult business environment in Q3FY26 due to global uncertainty triggered by U.S. tariff which disrupted exports to Rodney Hunt and lowered operating leverage leading to margin contraction. Management expects a meaningful recovery in profit margins (EBITDA 22-24% and PAT 12-14%) in FY27. Having completed 52 years, Jash continues to strengthen its global presence and aims to build Waterfront into a leading water equipment brand in the UK. Growth levers ahead include normalization of U.S. shipments, operating leverage-led margin recovery, ramp-up of the new SEZ facility at Pithampur, Saudi localization-led Middle East expansion, and incremental contribution (~Rs500mn) from WesTech and Penstocks UK acquisitions. Overall, management expects FY27 to mark a return to its earlier growth trajectory, supported by a diversified geographic mix and strengthening order book.

Maintain BUY with a TP of Rs600: Jash's orderbook remains healthy at Rs9.2bn from earlier Rs6bn in FY23/Rs8bn in FY25, driven by sustained demand for products from domestic market (Rs2.7bn) and international market (Rs6.5bn). The company plans to launch new products every year, with long gestation projects still to be Made in India. We forecast revenue/EBITDA/PAT CAGR of 14%/13%/18.5% over FY25-FY28E and RoE/RoCE of 20.4%/20.5% in FY28E. Our revised TP is Rs 600 (earlier Rs 663), based on a 26x multiple on FY28E EPS. Maintain BUY.

Investors are advised to refer disclosures made at the end of the research report.

Q3FY26 Earnings Highlights

Subdued Q3FY26 performance

- Revenue growth was muted due to sharp slowdown in US exports amid tariff uncertainty. Significant contraction in gross margins, EBITDA and PAT owing to lower operating leverage.
- Standalone revenue decline largely attributable to lower exports to Rodney Hunt (~Rs250–300mn impact).

Strong and diversified order book

- Consolidated order book at Rs 9.2bn, of which Rs 6.5bn is export-driven
- Targeting domestic revenue contribution of 40-45%, US 35% and balance RoW.

US Business

- U.S. revenue expected to decline from ~USD36mn last year to ~USD29mn in FY26 (~USD7mn drop), amid tariff-related uncertainty.
- Current U.S. order book at ~USD42mn, with booking momentum resuming from January (~USD3.5mn orders booked in Jan).
- Two consignments cleared at 25% tariff, with potential reduction to 18% post ratification

Guidance and profitability outlook

- FY26 revenue guidance revised to Rs7.8–8bn (vs earlier Rs8.6bn). FY26 PAT margin expected at 9–10%, despite tariff-related disruptions.
- With lower tariff, expecting EBITDA margin to come back to 22-24% and PAT margin of 12-14%.

Acquisitions update

- **WesTech**: 90% stake acquired with Rs450mn order book; ~Rs150mn to be executed in remaining FY26 and balance to spill over, with FY27 inorganic revenue contribution guided at ~Rs500mn.
- **Waterfront (UK)**: FY26 near breakeven/slight loss; outlook positive post Penstocks integration.
- **Penstocks UK** acquisition nearing closure (Feb–Mar timeline), strengthening Waterfront's Midlands presence and adding modular, "LEGO-style" design capabilities for global rollout.

Capacity Expansion

- Pithampur SEZ plant to commence commercial production from April, taking total Pithampur capacity to ~Rs3bn–4bn (depending on product mix).
- U.S. Houston plant delayed due to contractor bankruptcy; new contractor being finalized, with construction likely from mid-CY26 and commissioning targeted before September next year. Office setup deferred, focus remains on manufacturing.
- Expanding Middle East footprint through a manufacturing setup in Saudi Arabia, enabling localization benefits and catering to both global EPC players and Indian EPCs operating across the GCC region.
